SUMMARY

Highly motivated Software Engineering student specializing in Data Science and Analytics with strong academic performance (GPA: 3.94/4.0). Skilled in Python, SQL, Power BI, Excel, and PostgreSQL with hands-on experience in data analytics dashboards, database systems, and mobile application development. Passionate about transforming data into actionable insights and continuously improving technical expertise.

EDUCATION

Mehran University of Engineering and Technology (MUET), Jamshoro
B.E in Software Engineering
GPA: 3.94/4.0
Expected Graduation: 2027

PROJECTS

Data Analytics & Business Intelligence

- Walmart Customer Purchase Behavior Dashboard — Interactive Excel dashboard analyzing customer purchasing trends using pivot tables, charts, and visual insights.
- HR Analytics Dashboard — Power BI dashboard built using Excel data to analyze employee performance, attrition trends, and workforce insights.

Database Design & Development

- University Management System — PostgreSQL-based system with normalized schema design, ERD, and SQL queries for academic operations.
- Crime Incident Reporting System — PostgreSQL project with relational database design and analytical queries for incident reporting and insights.

Mobile Application Development

- Food Delivery Application (Flutter) — Cross-platform mobile app inspired by Foodpanda, built using Flutter & Dart with responsive UI, navigation, and ordering features.

TECHNICAL SKILLS

Data Science & Analytics: Data Science Methodology, Analytical Thinking

Programming Languages: Python, Dart, Java, C++, SQL

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Flutter

Data Visualization & Tools: Power BI, Excel, PostgreSQL, MySQL, MongoDB

Web & Mobile Development: Flutter, HTML, CSS, JavaScript

SOFT SKILLS

- Creative Problem Solving & Analytical Thinking
 - Strong Communication & Presentation
 - Leadership & Team Collaboration
 - Time Management & Discipline
-

LANGUAGES

- English — Fluent
- Urdu — Fluent
- Sindhi — Native
